

# Hit Me Like a Brick

James LaBrie

Doing fine on my own  
Plenty of room to roam  
Discovering the unknown  
Treading in the danger zone

Trying hard to stay on track  
Know I'm never coming back  
Gonna figure this thing out  
Have no shadow of a doubt

Sweet lady of my dreams  
Don't be shy  
I don't mind your honey-bee sting  
Do or die  
Die

It hit  
It hit me like a brick  
I never saw it coming  
It right knocked me on my ass

It hit  
It hit me like a brick  
I never saw it coming  
Have no answers  
Should you ask

Felt it for so long  
All this time been wrong

No place where I belong  
A love lost long gone

Never been this far out  
Isolated filled with doubt  
Couldn't hear me if I shout  
Still I wait and hang about

It hit  
It hit me like a brick  
I never saw it coming  
It right knocked me on my ass

It hit  
It hit me like a brick  
I never saw it coming  
Out of nowhere  
So damn fast

It hit  
It hit me like a brick  
I never saw it coming  
It right knocked me on my back

It hit  
It hit me like a brick  
I'm at a lost for words

Tell me  
How should one react
