

## Just Watch Me

James LaBrie

I've realized the errors of my ways  
I've come to terms that I've gone astray  
I'm far from perfect  
I know that I have let you down  
But that will change this time around  
I'll earn your respect  
I'll earn your respect

No promises broken  
That's for sure  
No wishin' and hopin'  
I'll find a magic cure  
This time I'll do things differently  
This time I will do it  
Just watch me

It's clear you're scared and I understand  
It's not been great just like we planned  
But I will show you  
But I Will Show You

No promises broken  
That's for sure  
No wishin' and hopin'  
I'll find a magic cure  
This time I'll do things differently  
This time I will do it  
Just watch me

No promises broken  
That's for sure  
No wishin' and hopin'  
I'll find a magic cure  
This time I'll do things differently  
This time I will do it  
Just watch me

No Promises Broken  
That's for sure  
No wishin' and hopin'  
I'll find a magic cure  
This time I'll do things differently  
This time I will do it  
Just watch me
