

# Love Will Save The Day

James Last

Sometimes life can make you crazy It can really put your body to the test You try so hard to make sure everything goes right And you find you've only wound up with a mess It's a common situation Even though you feel abandoned and alone Child, you ain't the first to experience the hurt So don't panic when you hit the danger zone

[Chorus:]

What you need's a little change of heart Forget this fear and frustration Love will always play the greater part When your battles wear you down Here's my advice - When you're feeling down and out And you've got troubles on you mind Love will save the day When you're feeling full of doubt And fear has got you in a bind Love will save the day When your worlds falling apart All you have to do is say a prayer And love will save the day There's an answer in your heart So let your light shine on my dear And love will save the day Love will save the day [X4]

Many things in this world bring you down It's a wonder you can make it through the day Well, you can't sleep cause your problems are too deep And there's always something getting in the way And when you turn on the evening news Mass confusion is the only thing you see Well there's no question that we need a new direction Cause we all could use some peace and harmony

[chorus]

Love is gonna save the day You've gotta believe it
