

# Denial

James Marriott

Say what you need  
So we can love for a while  
And stay in denial

I'm not trying to read you  
But it's all I've ever known  
If you insist on talking with your hands  
Who am I to tell you no?  
We're kissing like it's brand new  
Took but a second and you wanted more  
How can we speak  
With all our clothes on the floor?

Say what you need  
And you can stay for a while  
Say what I like  
So I can stay in denial

Won't you come away with me  
And water til we're overgrown  
Soak up all your energy  
Linger on the undertone  
Smiling contagiously  
Laughing as you let me fall  
I never would've fucked like that  
But I want it all

Say what you need  
And you can stay for a while  
Say what I like  
So I can stay in denial

So just hypothetically  
Will you be the death of me?  
Do you kiss me so my lips will bleed?  
Oh

Say what you need  
And you can stay for a while  
Say what I like  
So I can stay in denial
