

Over My Head

James Marriott

I don't find you funny
But how could I come clean
Please just stop performing for me
From behind your screen
It's been nothing short of an ok week
Knowing you
Don't you start doubting what it means
All too soon
Watch it all

Go over my head
Why you gotta taint this night with your thought out words
When you can
To-touch me instead
Or we can leave this here if you prefer
Oh was it
So-something I said?
Why don't you make a scene with words obscene
And watch them
Go over my head
And I will make it clear when I start from scratch again

To miss you is not an admission
It's just a withdrawal
So miss me with your conditions
I'm ignoring your calls
They would just

Go over my head
Why you gotta taint this night with your thought out words
When you can
To-touch me instead
Or we can leave this here if you prefer
Oh was it
So-something I said?
Why don't you make a scene with words obscene
And watch them
Go over my head
And I will make it clear when I start from scratch again

I want you in my sleep
But can't bear to have you next to me
I want you in my sleep
But can't bear to have you next to me
I want you in my sleep
But can't bear to have you next to me
I want you in my sleep
But can't bear to have you next to me

Oh
I want you in my sleep
Can't bear to have you next to me
I want you in my sleep
Can't bear to have you next to me

Go over my head
Why you gotta taint this night with your thought out words

When you can
To-touch me instead
Or we can leave this here if you prefer
Oh was it
So-something I said?
Why don't you make a scene with words obscene
And watch them
Go over my head
And I will make it clear when I start from scratch again
