

# Circles

James Maslow

I know when you want it  
Yes, you want it  
But you're never alone  
Just let me show you  
I can show you  
I'll do it better than before

Waiting my turn for your world cause it hurts without you, without you  
Taking some time just to find I'm alright when I'm not with you  
Look what I've been through

But you always keep me running round in circles (got me running)  
You always keep me scratching out the surface (got me running)  
You never let the light behind the curtains (got me running)  
Now you always keep me burning by the circles  
Yeah, I keep running round in circles

You think you own me, you don't own me  
Girl you're losing control  
So, let me show you  
That I can show you  
I don't need you anymore

Waiting my turn for your world cause it hurts without you, without you  
Taking some time just to find I'm alright when I'm not with you  
Look what I've been through

But you always keep me running round in circles (got me running)  
You always keep me scratching out the surface (got me running)  
You never let the light behind the curtains (got me running)  
Now you always keep me burning by the circles  
Yeah, I keep running round in circles

You always keep me running right back to you  
I know you like me coming right back to you  
So, baby I'll keep running right back to you  
Or I'll just keep on running, no, no, no

But you always keep me running round in circles (got me running)  
You always keep me scratching at the surface (got me running)  
You never let the light behind the curtains (got me running)  
Girl, you always keep me running round in circles  
Yeah, I keep running round in circles  
But you always keep me running round in circles (got me running)  
You always keep me scratching at the surface (got me running)  
You never let the light behind the curtains (got me running)  
Girl, you always keep me running round in circles  
Yeah, I keep running round in circles
