

Crazy Talk

James Maslow

You're like a drug I've never had
I've never wanted something so bad
We're moving fast like a heart attack
I gotta say I'm fine with that

Need another taste of you
Addicted to the way you move

This is crazy
I don't even know you but I'm
Thinking maybe
You could be my one and only
If I said it first
Would it scare you? Would it
Make you wonderful?
Or am I talking crazy?

I wanna be the one you calling when you're lonely
See you in the morning looking at me
We, we could catch some butterflies, oh

Need another taste of you
Addicted to the way you move

This is crazy
I don't even know you but I'm
Thinking maybe
You could be my one and only
If I said it first
Would it scare you? Would it
Make you wonderful?
Or am I talking crazy?

This is crazy
I don't even know you but I'm
Thinking maybe
Or am I talking crazy?

Am I talking crazy?
Talking crazy

This is crazy
Thinking maybe
