

How I Like It

James Maslow

Hidden lie, deep inside
Can't get her off my mind
Baby girl, what a world
There ain't no black or white
There ain't no time or better place
This secret I'll reveal
So come with me to paradise
I'll show you how dreams feel

Uuh...
The music of her name
Uuh...
Running through, running through
Uuh...
The music of your name
Uuh...
Running through my veins

Now I got you, I got you alright
Where I want you, I want you tonight
How I like it, I like it, oh my
Just like, ooh yeah
Now I got you, I got you alright
Where I want you, I want you tonight
How I like it, I like it, oh my
Just like, ooh yeah

How I like it, how I like it, how I like it, how I like it
How I like it, how I like it, how I like it, how I like it

Half asleep, couldn't sleep
Now with her by my side
Every time I close my eyes
I'm missing you, sunshine
I played the game
The world will see
You are my victory
So take my hand, I'm your man
Your forever fantasy

Uuh...
The music of her name
Uuh...
Running through, running through
Uuh...
The music of your name
Uuh...
Running through my veins

Now I got you, I got you alright
Where I want you, I want you tonight
How I like it, I like it, oh my
Just like, ooh yeah
Now I got you, I got you alright
Where I want you, I want you tonight
How I like it, I like it, oh my
Just like, ooh yeah

How I like it, how I like it, how I like it, how I like it
How I like it, how I like it, how I like it, how I like it

Hidden lie, deep inside
Can't get her off my mind
Baby girl, what a world
There ain't no black or white

Now I got you, I got you alright
Where I want you, I want you tonight
How I like it, I like it, oh my
Just like, ooh yeah
Now I got you, I got you alright
Where I want you, I want you tonight
How I like it, I like it, oh my
Just like, ooh yeah
