

Love U Sober

James Maslow

A lot of late nights
A lot of one nights
I ain't gunna lie to you
Drunk out of my mind
All of the time
So baby ya, that's the truth

I know that I've made some mistakes
I'm sick and tired of these old ways
I musta been blind
All of the time
Up until I met you

I wanna take another drink from your eyes
I don't need another hit now, you're my vice

I wanna love you sober
Ever since last October
Every night I dream about you
Tell me what's on your mind
All I do is think about you
And when we get older
I'll still wanna take your clothes off
Every night I dream about you
I'm in it for the rest of my life
All I do is think about you

Party for days
Playing the game
That's what I used to do
I'd smoke it away
Get lost in the haze
Never had much to lose

Always in a crowd yet alone
Never had a place to call home
I musta been blind
All of the time
Up until I met you

I wanna take another drink from your eyes
I don't need another hit now, you're my vice

I wanna love you sober
Ever since last October
Every night I dream about you
Tell me what's on your mind
All I do is think about you
And when we get older
I'll still wanna take your clothes off
Every night I dream about you
I'm in it for the rest of my life
All I do is think about you
