

Glorious

James Morrison

We were just two kids with a curious appetite
We were two young hearts beating hard as we touched the fire for the first time
It was summer, we were blazed
Do you remember? In the rain
We got soaking wet and we laughed so hard we fell over

And it was glorious
And it was glorious

It was nothing like I imagined
Getting love drunk in the park
It was nothing like the movies
To feel your body in the dark
It was glorious
And it was glorious

Now were just two fools we don't even go out to play
I forgot how to love without being so fearful of the heartache
But every summer, sunny days
I still remember when it rained
And I held my breath as you layed your head on my shoulder

And it was glorious
And it was glorious

It was nothing like I imagined
Getting love drunk in the park
It was nothing like the movies
To feel your body in the dark
It was glorious
And it was glorious

Let's find a way so we can be free again
Cause I wanna feel the fire that started this
Cause it was glorious
And it was glorious

It was nothing like I imagined
Getting love drunk in the park
It was nothing like the movies
To feel your body in the dark
It was glorious
And it was glorious

It was glorious
