

Since You Brought It Up

James Otto

You call me up
The conversation goes in the usual way
What'cha doin
Whole lot of nothin
Oh it's been a long long day
And then you mention
You got this bottle of wine
You been savin for awhile
Yeah it's just waitin to be opened
I can almost hear you smile

Since you brought it up
Why don't you bring it over
I'd love to see you standin at my door
Your auburn hair fallin down your shoulders
Come on baby what are you waitin for
You got the wine
I've got all night
We're only gettin older
Since you brought it up
Why don't you bring it over

You been lookin
For that little black dress
You found the perfect one today
Yeah it's just hangin in the closet
You wanna wear it in the worst of ways

Since you brought it up
Why don't you bring it over
I'd love to see you standin at my door
That little strap kinda fallin off your shoulder
Come on baby it's what you bought it for
You got the wine
I've got all night
We're only gettin older
Since you brought it up
Why don't you bring it over

You say the loneliness has got you down tonight
Your body's tired and it's wound up tight

Since you brought it up
Why don't you bring it over
I'd love to see you standin at my door
Kick off your shoes and let me rub your shoulders
Come on baby what are you waitin for
You got the wine
I've got all night
Were only gettin older
Since you brought it up
Why don't you bring it over
Why don't you bring it over
