

Down Low

James Reid

I think it's time to turn the lights down low
I ain't gotta tell her that she got my soul
We could run away somewhere that only we know
We know, we know, we know
I think it's time to turn the lights down low
I ain't gotta tell her, she already knows
When she bites my lips it's time to take it off
Real slow, real slow, real slow

"Good morning, love", she whispered as she woke me up, I know
We're so in love, they're jealous of the both of us
You're the only one to whom I've really opened up, you know
I'm hoping luck has found the girl I'm supposed to love
And you don't have to make a sound
With my music, I break it down for you
At night, when I come around, yeah yeah yeah
Give you something to scream about

I think it's time to turn the lights down low
I ain't gotta tell her that she got my soul
We could run away somewhere that only we know
We know, we know, we know
I think it's time to turn the lights down low
I ain't gotta tell her, she already knows
When she bites my lips it's time to take it off
Real slow, real slow, real slow

I'm real with you and you're true to me
Do you think we can keep it just between you and me?
Oh baby I'm so cold, you got me on my knees
And I'll let you do whatever you want to me
Run away with you, we could leave our shoes on the beach
Or a date for two with your favorite food, wandering
Can I savor you, can I play it cool, honestly
I don't know, baby, I just don't know

You're my best kept secret
Yes, you are
You're my best kept secret
You're my best kept secret
You're my best kept secret

I think it's time to turn the lights down low
I ain't gotta tell her that she got my soul
We could run away somewhere that only we know
We know, we know, we know
I think it's time to turn the lights down low
I ain't gotta tell her, she already knows
When she bites my lips it's time to take it off
Real slow, real slow, real slow

Good morning love
We're so in love
Plus, the only one to
I'm hoping luck has found the girl I'm supposed to love
