

# Fiend

James Reid

Girl you got me fiending  
Need my daily dose  
Love you in my system  
Feel it in my bones  
Don't need a prescription  
Can't get you from the store  
You are my addiction  
Nothing I want more

Drinking every weekend  
Driving down the coast  
Like when we go missing  
And no body knows  
Don't forget to breathe in  
Pull me in like smoke  
Feeling like I'm sinking  
How far does it go

I can't get enough  
I think I'm in love  
I can't get enough  
I think we're in love  
I want you babe come back to my place  
And get it uh  
Your lovely face run my mind all day  
So pretty yeah  
I can't get enough  
I think I'm in love  
I can't get enough  
I think we're in love  
I want you babe come back to my place  
And get it uh  
Your lovely face run my mind all day  
So pretty yeah

Girl you're perfect so  
Is it worth it to  
Leave your friends and come roll with me baby  
Cos I know you ain't had no one else by your side in a long time  
If I put you to bed I'll make sure you don't wake on the wrong side alright  
Girl I ain't playing  
Take you for a ride in the coupe  
Got you mesmerized by the jewels  
You know what I'm saying  
I ain't been outside in a minute  
I've been making fire in the booth  
And is all about you  
I said it's all about you

I can't get enough  
I think I'm in love  
I can't get enough  
I think we're in love  
I want you babe come back to my place  
And get it uh  
Your lovely face run my mind all day  
So pretty yeah

I can't get enough  
I think I'm in love  
I can't get enough  
I think we're in love  
I want you babe come back to my place  
And get it uh

Straight to my bed, girl  
Give you a taste of this  
Can I get down just a lil bit  
Gusto ko lang naman ay ang  
Makita mo ang tunay na hangarin ko  
Cause girl you deserve better  
Goddamn you deserve better  
Show you off  
Ain't nobody like you  
Cause I really really really wanna get you to know me  
Fuck you slowly  
With the flow so hood  
Me and you shawty  
Talking you dirty in this room  
But before we flexin  
Kahit may magalit  
Let me in yo face it  
Theres a mothafucking madumi in it  
Yeah

I don't wanna leave without you  
Can't step on the scene without you  
You know how I feel about us  
Like the world revolves around us

Let me inject you with energy  
Cosmic revelry oh  
The only lesson is you're already perfection  
And whole  
I'll get you open and show you oceans  
In your inner space  
I'll heal your soul with true love just throw your ego away  
Just throw that ego away  
Forget about the flex girl let's live for today  
Just throw that ego away yeah

I don't wanna leave without you  
Can't step on the scene without you  
You know how I feel about us  
Like the world revolves around us

(I don't wanna leave without you  
Can't step on the scene without you  
You know how I feel about us  
Like the world revolves around us)
