

# Forever

James Reid

Look what you did to me  
My feelings comin' out now  
Hold on, lemme write down  
All that you mean to me  
I'm thinking 'bout you right now  
Trying to describe how  
Love has affected me  
Girl, I can see your light now  
Got you in my sight now  
You got a friend in me  
No, we don't pretend  
No, we don't pretend  
No we

You are all I want  
So much that I put it in a song  
Can we just stay home  
We can take turns on the PlayStation  
You are all I need  
You made me see  
Promise I'll make you believe

We found forever  
I promise I'll make you believe  
We found forever  
Oh yeah

Tryna understand how I fell  
Yeah, baby tell me is it real?  
This must be your dream come true  
'Cause you don't disappear when I lean on you  
We can go out everyday, baby, if you want to  
You could make it rain on me like a monsoon  
You don't make me stay 'cos you know I love you  
And no matter where I may go  
Girl, I always love you, I love you, I love you

You are all I want  
So much that I put it in a song  
Can we just stay home  
We can take turns on the PlayStation  
You are all I need  
You made me see  
Promise I'll make you believe

We found forever  
I promise I'll make you believe  
We found forever

No need to rush our love  
'Cause we got forever, baby  
We got forever, baby  
No need to rush our love  
'Cause we got forever, baby  
We got forever, baby

No need to rush

'Cause we got forever, baby  
We got forever, baby

We found forever (We found forever)  
I promise I'll make you believe (Make you believe)  
We found forever (Look what you did to me)  
(Girl, you need to see, oh oh, yeah yeah)  
(Do you believe it?)

Do you believe me?
