

Healing

James Reid

Love is the art of the soul
It's beyond our control
I'm bleeding all these colours for you

Dripping like paint on the walls
Lifted away when you call
I'm bleeding all these colours for you

You got me feeling
Like I can do this all night
Yeah you got me healing
Now I got love in my life

You got me feeling
Like I can do this all night
Yeah you got me healing
Now I got love in my life

Yeah you got me feeling good, feeling whole, like my heart is gold
Think we should get our soles dancing on the floor
Cause when I move with you, your love seeps in my wounds
And now it stopped bleeding, yeah
And you are the reason, yeah

You're the one I lean on
Your love is something I could never sleep on
Said your ex-man let you go, what is he on,
Keep on, emanating vibes we agree on
You got that good thing I like
Hold onto you late at night,
Bask in the light of your aura
Youth water flowing, lets pour up
You my remedy on cue,
High with a birds eye view,
Outta this world, transcend to the night with you,
Tryna live my best live with you,
Dancin' the night away,
Eyes closed but I'm wide awake,
I love what you do to me, truthfully,
Twin flame, synchronised souls like we're night and day

Feling good, feeling whole, like my heart is gold
Think we should get our soles dancing on the floor
Cause when I move with you, your love seeps in my wounds
And now it stopped bleeding, yeah
And you are the reason, yeah

Yeah you got me feeling
Like I can do this all night
Yeah you got me healing
Now I got love in my life

You got me feeling
Like I can do this all night
Yeah you got me healing
Now I got love in my life

Love is the art of the soul
It's beyond our control
I'm bleeding all these colours for you

Dripping like paint on the walls
Lifted away when you call
I'm bleeding all these colours for you

Love is the art of the soul
It's beyond our control
I'm bleeding all these colours for you

Dripping like paint on the walls
Lifted away when you call
I'm bleeding all these colours for you
