

Right There

James Reid

You, all I see is you
Ooh ooh, I know just what to do
To make you feel like this all night
Just let me get you alone right now
Got you right in the zone like
There's nowhere to go but down

Yeah, fly to me I got you
I could be good for you
Fight for a girl like you
Yeah, you got it so far
You're smiling 'cause it's true

Yeah, lie to me girl it's fine
I know what's on your mind
I'm gonna make you mine
Yeah, you got it so far
You're smiling 'cause I'm right

I see my baby right there
I see my baby right there
Acting like you don't know already
I see my baby right there
I see my baby right there
Like how you play it like that
I like how you play it like that
Wait 'till I get you alone, baby
