

so fire

James Reid

What you on?
The way you dancin'
Wanna make you my lady
Baby we can do it all (oh)
I can drive you crazy
Only in a Mercedes

If you feelin' something say yeah (yeah)
Baby let me take it from here (here)
We could get it poppin'
I just wanna lock in
Hour glass figure like wow (wow)
Time is in my hands right now (now)
When nobody's watching
We can take this thing home

You so fire (fire)
I can't help but get too close (fire)
You so fire (fire)
I just wanna watch you glow (fire)
You know
You so fire (fire)
I can't help but get too close (fire)
You so fire (fire)
I just wanna watch you glow (fire)
I just wanna watch you glow

You don't gotta look no more
Girl I'm yours
Got me at your feet right now
In between your knees right now
If you wanna one-two step
Then there's only one thing left
Give me a sign
Tell me that you're mine

If you feelin' something say yeah (yeah)
Baby let me take it from here (here)
We could get it poppin'
I just wanna lock in
Hour glass figure like wow (wow)
Time is in my hands right now (now)
When nobody's watching
We can take this thing home

You so fire (fire)
I can't help but get too close (fire)
You so fire (fire)
I just wanna watch you glow (fire)
You know
You so fire (fire)
I can't help but get too close (fire)
You so fire (fire)
I just wanna watch you glow
I just wanna watch you glow
