

## spotlight

James Reid

I used to know every little thing about you  
And now I'm learning how to do it all without you  
Starting to breathe starting to see  
Starting to think it wasn't all just me  
I still know every little thing about you

Just cause you've moved on  
That don't mean it don't matter  
That don't mean it don't matter  
You can't just turn it off  
It's not now but not never  
It's not now but not never

I never saw it coming and it's hard to believe it  
Living in the spotlight, where did our secrets go?  
Cause everyone out here knows  
Ooh you said I was your courage but you made me a weakness  
Living in the spotlight, ain't what we needed, no  
And everyone out here knows

All that's left is the spotlight  
All that's left is the spotlight  
Glow  
Glow

Hard to leave it all but I had reasons  
We're way too young to feel this old  
Everything in life goes with the seasons  
Our summer love just went cold

Just cause you moved on  
That don't mean it don't matter  
That don't mean it don't matter  
You can't just turn it off  
It's not now but not never  
It's not now but not never

I never saw it coming and it's hard to believe it  
Living in the spotlight, where did our secrets go?  
Cause everyone out here knows  
Ooh you said I was your courage but you made me a weakness  
Living in the spotlight, ain't what we needed, no  
And everyone out here knows

All that's left is the spotlight  
All that's left is the spotlight  
Glow  
Glow

(All that's left is the spotlight  
All that's left is the spotlight  
Glow  
Glow)

Just cause you moved on  
That don't mean it don't matter  
That don't mean it don't matter

I never saw it coming and it's hard to believe it  
Living in the spotlight, where did our secrets go?
