

# Every Tooth A Tombstone

James Reyne

Ooh don't it make you wanna run for cover  
The cafe' bars won't close up for the night  
Ooh you know I'm breaking out all over  
A pasta here and I passed her there  
And ooh she looked a fright  
All those scary little creatures of the night  
Come on out and tell me it's all right

And then you smiled  
Every tooth a tombstone  
And when you smiled  
Every tooth a tombstone

Ooh you know I'm keepin' out of reach  
Another two-door Falcon passed me by  
Ooh they don't even got a beach  
Don't need a little mountain baby  
Ooh I gotta fly  
We'll go dancin' on the cosmic surfer's grave  
One foot in a wetsuit  
One foot on a wave  
All those scary little creatures of the night  
Come on out and tell me it's all right

And then you smiled  
Every tooth a tombstone  
And when you smiled  
Every tooth a tombstone

South of the river everything is all right  
We're just sharp as a razor  
We're just high as a kite  
So young and golden  
Don't it make you shiver  
Beautiful forever boys  
South of the river  
Down south

And then you smiled  
Every tooth a tombstone  
And when you smiled  
Every tooth a tombstone

Smiled  
Every tooth a tombstone  
Smiled  
Every tooth a tombstone  
Every tooth a tombstone  
Every tooth a tombstone
