

At The Same Time

James TW

Oh there is something scaring me
When I think of where will be
Somewhere down the line
In 2089

You would've just turned 92
I'll be a few years behind of you
We'd be old and grey
Living our last days

And after spending our whole lives together
One of us will be alone
I always said that I'd hold you forever
That's why I hope, that's why I hope

That we die at the same time
In the same bed on the same night
So I'll never have to go through
A day where I'm without you

Hope we die at the same time
And our eyes will close synchronized
Then we'll always remember
We say goodbye together
At the same time
(Hmm, hmm, hmm)
At the same time

What would I do without your smile
Without your jokes and your fashion style
Every single day?
You make me feel this way

And I could stare at these funny pictures
But all the memories would make me miss you
I fear the day that I have to miss you

'Cause after spending our whole lives together
I don't want one of us to be alone
I always said that I'd hold you forever
That's why I hope, that's why I hope

That we die at the same time
In the same bed on the same night
So I'll never have to go through
A day where I'm without you

Hope we die at the same time
And our eyes will close synchronized
Then we'll always remember
We say goodbye together
At the same time
At the same time

Every time I saw a star
I would wonder where you are
I never want to be that far, that far from you

What you love in life you lose
But what if we got to choose
Darling I know what I'd choose

That we die at the same time
In the same bed on the same night
So I'll never have to go through
A day where I'm without you

Hope we die at the same time
And our eyes will close synchronized
Then we'll always remember
We say goodbye together
At the same time
(Hmm, hmm, hmm)
At the same time
(Oh)
At the same time
(Hmm, hmm, hmm)
At the same time
(Oh)
At the same time
