

How the hell you find me in this universe?
A billion different people, still I found you first

Look what you've done, you just crashed and you changed my whole life
Found a way to my heart, now it's like you've here the whole time

'Cause girl you make it oh so easy
Oh so easy to love you
'Cause girl you make it oh so easy
Oh so easy to love you

I'm not smart enough to try and understand
Why you choose my love over a better man

Look what you've done, you've just crashed and you changed my whole life
Found a way to my heart, now it's like you've here the whole time

'Cause girl you make it oh so easy
Oh so easy to love you
'Cause girl you make it oh so easy
Oh so easy to love you
Oh my heart's jumping out of my chest
I keep falling again and again
'Cause girl you make it oh so easy
Oh so easy to love you

Look what you've done, you just crashed and you changed my whole life
Found a way to my heart now it's like you've here the whole time

'Cause girl you make it oh so easy
Oh so easy to love you
'Cause girl you make it oh so easy
Oh so easy to love you
Oh my heart's jumping out of my chest
I keep falling again and again
'Cause girl you make it oh so easy
Oh so easy to love you

You make it so easy, so easy to love you
