

Incredible

James TW

You're wearing that dress I like
Those heels make you six feet high
And in the taxi, you're tryna put your make-up on
While singing the words to your favorite song

My God, it's been a while
Since the last time I saw you smile
Sometimes life gets so crazy
That we can forget
All the little things we did
Back when we first met

Suddenly, the room grows quiet
I'm lost in your eyes
It feels like we're all alone
As the lights go on

It's getting late
Wish we could stay like this forever
Dancing till both our feet ache
My love
Nothing can break these arms

In your embrace
This crowded room doesn't matter
We're dancing like it's our own stage
My love
I just want to say
That you look incredible tonight

And all our friends are going home
Just leaving us all alone
And it's moments like this I never wanna let go
We're still those two kids putting on a show

Standing here, the room is so quiet
I'm lost in your eyes
It feels like we're all alone
As the lights go on

It's getting late
Wish we could stay like this forever
Dancing till both our feet ache
My love
Nothing can break these arms

In your embrace
This crowded room doesn't matter
We're dancing like it's our own stage
My love
I just want to say
That you look incredible tonight

Staring in your navy eyes
As we hold each other
Dancing through the night

It's getting late
Wish we could stay like this forever
Dancing till both our feet ache
My love
Nothing can break these arms

In your embrace
This crowded room doesn't matter
We're dancing like it's our own stage
My love
I just want to say
That you look incredible tonight

Oh incredible tonight
Incredible tonight
My love
I just want to say
That you look incredible tonight
