

Is It Love

James TW

Is it love
Is it love

Are you happy darling honestly
Are we running out of energy
All this fighting and we never learn
When do you reach the point of no return

Are we happy or just holding on?
Cause we don't know where else we belong
Feels like we're running out of reasons
To keep on picking up the pieces

Endless conversation
Just to end up at the start
I know that nothings perfect
But should it really be this hard?
Darling is it worth it if it's wearing on our hearts, tell me

Is it love, my love?
Is it love
Is it love
If we're only fixing us
Is it love
Is it love
If it's only breaking us
Maybe we're holding on
Because we're scared of being lonely then
Is it love, my love?

Now we're sleeping back to back
Two phones in a room but the rest is black
We used to roll around the floor laughing
And now you're rolling to the side what happened

Endless conversation
Just to end up at the start
I know that nothings perfect
But should it really be this hard
Darling is it worth it if it's wearing on our hearts, tell me

Is it love, my love?
Is it love
Is it love
If we're only fixing us
Is it love
Is it love
If it's only breaking us
Maybe we're holding on
Because we're scared of being lonely then
Is it love, my love?

Is it love
Is it love
If we're only fixing us
Is it love
Is it love

If it's only breaking us
Maybe we're holding on
Because we're scared of being lonely then
Is it love, my love?

Oh is it love, is it love
Oh is it love, is it love
Oh is it love, is it love
Is it love my love?

Is it love
Is it love
If we're only fixing us
Is it love
Is it love
If it's only breaking us
Maybe we're holding on
Because we're scared of being lonely then
Is it love my love?

Is it love
Is it love
If we're only fixing us
Is it love
Is it love
If it's only breaking us
Maybe we're holding on
Because we're scared of being lonely then
Is it love my love?

Is it love
Is it love
Is it love
Is it love
Is it love
Is it love
Is it love my love?
