

Like No One's Watching

James TW

I'll paint you the scene
You ask can we leave
You barely know anybody

You're scared the whole room
Is looking at you
Darling, you don't have to worry

'Cause it's just you and I
So trust me tonight

Just take my hand and dance
Like no one's watching
If they don't understand
That's not our problem
Spin me 'round like you do
When we're drunk in our living room
Just dance like no one's watching

I'll paint you the scene
Your eyes are on me
Bare feet you're spinning in circles

Your laugh in the air
Like you don't even care
The way we look right now

Just take my hand and dance
Like no one's watching
If they don't understand
That's not our problem
Spin me 'round like you do
When we're drunk in our living room
Just dance like no one's watching

Dance like no one's watching

I'll paint you the scene
Your arms around me
I love the way that we dance
Like no one's watching
