

# Lipstick

James TW

Your eyes  
They've become so familiar  
Most nights  
Look at me just the same  
Sometimes  
It's like they're pulling me closer  
Saying  
"Give me all of you tonight"

Oh you gotta hold of me when

You put your Lipstick on  
You're telling me exactly what you want  
We both that dress won't be on for long  
You drive me crazy with your Lipstick on

I won't lie  
Oh it's Crazy how you still catch me  
By surprise  
When I know you so well  
And I pray  
Everyday  
You and I  
Will never change

Oh Gotta hold of me when

You put your Lipstick on  
You're telling me exactly what you want  
We both that dress won't be on for long  
You're eyes are telling me just one song

You put your Lipstick on  
With every move you make I come undone  
You don't just how much you turn me on  
You drive me crazy with your lipstick on

Oh you know I'll never keep you waiting  
Give it up, give you all I can  
All my love is yours for the taking  
You just cut right through to me  
Don't know what you do to me

You put your Lipstick on  
You're telling me exactly what you want  
We both that dress won't be on for long  
You're eyes are telling me just one song

Oh you put your Lipstick on  
With every move you make I come undone  
You don't just how much you turn me on  
You drive me crazy with your Lipstick on
