

Please Keep Loving Me

James TW

I know I have my moments
And at times I'm hard to be around
I get impatient when you're getting dressed
It's just, I thought the first one looked the best

You're beautiful
More than I deserve
So listen close
To these 1, 2, 3, 4 words, so

Please keep loving me
Cause our hearts speak fluently
Wherever I go, whatever I do
The map on my heart leads to you
So baby, please keep loving me
Loving me, loving me

Your lips on my smile
Are like bees round a honeycomb
You see through my harsh misty windows
And out of all the fingerprints only yours will show

You're beautiful
Before the make-ups on
And out of all the girls
You're the one I want

Please keep loving me
Cause our hearts speak fluently
Wherever I go, whatever I do
The map on my heart leads to you
So baby, please keep loving me
Loving me, loving me

For all the mistakes
I'm making, I don't mean
I don't mean them, I don't mean them
For all the little things
That I failed to see
My heart is on my sleeve

Please keep loving me
Cause our hearts speak fluently
Wherever I go, whatever I do
The map on my heart leads to you
So baby, please keep loving me
Loving, loving me
Please keep loving me
