

Say Something

James TW

The symptoms are so familiar
My feelings don't know their place
Cold hands, I'm shaking

Caught somewhere in the middle
Between knowing what to say
And silence, I'm breaking

As we dance 'round the living room
Your shadow falling into mine
It's torture here with you
With all this on my mind

If I say something, say something
Tip of my tongue
If I tell you this
Promise you're not going to run
When I go to open up my mouth
Gonna stop before the words come out
Don't wanna say something, say something 'cause
I'm scared I'm in love
Oh
Love
Oh

It's magical in the moment
I can't figure out the timing
If I could then I would

Surrender to my emotion
And show you the brave inside
But this feels too good

As we dance 'round the living room
My fears are fading with the night
Takes time to tell the truth
With all this on my mind

If I say something, say something
Tip of my tongue
If I tell you this
Promise you're not going to run
When I go to open up my mouth
Gonna stop before the words come out
Don't wanna say something, say something 'cause
I'm scared I'm in love
Oh
Love
Oh

I'm scared you're the one
Scared this is us
Scared I'm in love
Oh

If I say something, say something
Tip of my tongue

If I tell you this
Promise you're not going to run
When I go to open up my mouth
Gonna stop before the words come out
Don't wanna say something, say something 'cause
I'm scared I'm in love
Oh
Love
Oh

I'm scared you're the one
I'm scared this is us
Don't wanna say something, say something 'cause
I'm scared I'm in love
