

## Suitcase

James TW

We don't have to fall with it  
It doesn't have to be this way  
You're tryna talk me out of it  
Just to see if I'll break  
Say that I'm done, call it a day  
Tell me do you ever wonder  
How it can feel holdin' our weight  
Under the pressure we're under

'Cause usually by now we're sleepin' just fine  
But I've never seen that tired look in your eyes  
Just promise me you'll sleep on it  
One more night

'Cause baby it's too late  
To be packin' up your suitcase now  
No you can't just decide to walk away  
Just when things don't go our way  
After all we've been through  
If this means anything to you  
Then stay

Remember in the beginning  
I didn't even know your name  
Pre drinking in your friend's kitchen  
Who'da known that someday  
Years down the line, you would be mine  
And I'd be here stopping you leaving  
And when we wake up, we'll go back to us  
And then you'll know every reason

Baby it's too late  
To be packin' up your suitcase now  
No you can't just decide to walk away  
Just when things don't go our way  
After all we've been through  
If this means anything to you  
Then stay  
You, then stay  
You, then stay  
You, then stay

'Cause usually by now we're sleepin' just fine  
But I've never seen that tired look in your eyes  
Just promise me you'll sleep on it  
One more night  
One more night

'Cause baby it's too late  
To be packin' up your suitcase now  
No you can't just decide to walk away  
Just when things don't go our way  
After all we've been through  
If this means anything to you  
Then stay
