

# Grapefruit

James Vincent McMorrow

I don't like the shit I talk about anymore  
It feels so tired  
It feels untrue  
I don't know why  
What I can do about it

I survive like I always do  
Playing along  
When there's a forest outside  
Got nothing to prove  
I'd rather not drive  
When I'm this mood though

So I drove your car into a vacant lot  
Stuck it in a fence, I tried reversing back  
You come, you find me and you say this  
Remember it, remember how it felt

Out of my mind, I tell you that I love you  
Out of your mind, tell me that you love me too  
Not waste our time pretending that we thought it through  
Sounds about right, never what we should do  
Typical, typical of me to call  
Impossible, possible for this to work but  
Out of my mind, I tell you that I love you  
Out of your mind, now tell me what you want to do-oooh-oooh-oooh-oooh  
Tell me what you want to do-oooh-oooh-oooh-oooh  
Tell me what you want to do

I still ride my horse like everyone, day to day  
'Cause I'm stubborn like that  
I got stats in my phone  
The stride of my walk, it says leave me alone  
And I will assume that you kept on running  
How come, how come we can't ever be humble?

Maybe we should live in our own place for sure  
It's good to know, good to know a neighbourhood  
As a person, I have no self-control  
Remember this, remember how it goes

Out of my mind, I tell you that I love you  
Out of your mind, tell me that you love me too  
Not waste our time pretending that we thought it through  
Sounds about right, never what we should do  
Typical, typical of me to call  
Impossible, possible for this to work but  
Out of my mind, I tell you that I love you  
Out of your mind, now tell me what you want to do-do-do-do-do  
Tell me what you want to do-do-do-do-do  
Tell me what you want to do-do-do-do-do  
Tell me what you want to do-do-do-do-do
