

# Steven

James Vincent McMorrow

So by the time I hit the stage  
My fever'd started breakin'  
I could see it all  
I could see it all  
Why Steven went away  
Because he'd said he needed space  
I could hear that when we'd speak  
He'd grown sore and tired and needed sleep  
So we pulled into his hometown like some  
Matadors from Spain  
Movin' fast like we were air  
Even Becky stopped and stared  
Because her mother, she had died  
But her brother, he survived  
They don't talk that much these days  
But you look a lot like him

So take the lake, I'll take the valley  
You'll let me know if you're married  
I could use that change of pace  
I really hate the way we left things  
Can you believe I wake up early now?  
Late for some, I'm still learnin' how to  
Be the type of person you expected me to be  
When we were younger  
I think a lot about us back then

Then I took TV breaks at 1:15 and I went back to bed  
My alarm was never loud  
It was drowned out by the sound of waves  
And waves of wasps that tried to get  
Inside my bedroom window  
Who complain and when it's warm  
All I wanted to do was just leave my home and  
Drive around in circles near the airport parkin' lot  
Planes that passed us overhead  
We'd imagine where they went  
Then when I'd see your letter  
You'd tell me I'm your favorite  
You'd tell me we're the same, but  
You still think I can't be saved

So take the lake, I'll take the valley  
You'll let me know if you're married  
I could use that change of pace  
I really hate the way we left things  
Can you believe I wake up early now?  
Late for some, I'm still learning how to  
Be the type of person you expected me to be  
When we were younger  
I think a lot about us back then

And if it was warm enough  
You'd always try to swim  
You'd jump off the bridge, I'd go  
I would fall right in  
I was the last person we ever thought

Would end up where I am

So take the lake (Take the lake), I'll take the valley (Take the valley)  
You'll let me know (Let me know) if you're married (If you're married)  
I could use that change of pace  
I really hate the way we left things  
Can you believe (You believe) I wake up early now? (I wake up early now)  
Late for some (Late for some), I'm still learning how to (I'm still learning  
)  
Be the type of person you expected me to be  
When we were younger  
I think a lot about us back then  
About us back then  
I think a lot about us back then  
About us back then
