

You're going to murder in the name of God  
What kind of God you dreaming of?  
A God of blood not love

So, you can get your 72  
Virgins to abuse  
I hope they kick like mules

War, war

My God's bigger than your God  
He made the world run out of puff  
More important things to do

War, war

It's black, it's white, a fight  
An elephant gray  
There's this universe at stake  
We get in the way

Go left, go right, straight on  
Just do what they say  
There's a universe at stake  
We get in the way

It's black, it's white, a fight  
An elephant gray  
There's a universe at stake  
We get in the way

Go left, go right, straight on  
(War)  
Just do what they say  
There's a universe at stake  
(War)  
We get in the way

War, war, war, war
