

Fire Away

James

Fire away
Fire away

Break those chains
These laws are criminal
Help them burn
These times are critical

Fire away
Fire away
Fire away

This change is looking good
Our hopes are riding high
But we're in backwoods, backwoods from another time
Our boss is full of lies
Shouting secrets, secrets
Cover up
Cover up
She is enthroned in crime

Don't hold your face
To the winds of change
Don't hold your face
To the winds of change

Fire away
Fire away
Fire away
Away

World change is looking good
Our hopes are riding high
But we're still in these backwoods, backwoods from another time
Our boss is full of lies
Full of deadwood deadwood
She needs a light
She needs a light
Fire away

She says I refuse to change
I have closed my eyes
I have closed my mind
I have closed my eyes
I have closed my mind

Open up your mind
Open up your mind
Open up your mind
Open up your mind

Don't hold your face
To the winds of change
Don't hold your face
To the winds of change
