

Fishknives

James

It's your birthright
It's homegrown
Passed on from the father side to son
It's a gene pool
It's your landscape
It's conditioning grips you can't break (yeah)

Get this feeling
I'm in prison
Gotta break out
File in fruitcake
Try and fake it
With the real men
Trying to fill my father's size ten (that's right)

I'm a late child
I'm a love child
It's enough child, I'm appealing
I'm appealing
I'm appealing
To a need we've all been feeling

Get a suit on
Think you're full-grown
All these grown-ups
Don't know how to break down
See the monkeys at the party
Getting high on the latest technology (that's right)

Got to hide you
Got to shave you
For a man, you're two genes too few
See the monkeys at the party
All these apes are chewing on fish knives

Fish knives
Fish knives

Knives
Fish knives
Fish knives
Fish knives
