

# Hope to Sleep

James

Lost, west of these mountains  
She walks the island, island to fail  
Stars blink out directions  
Through cloud formations  
Some kind of a code  
She reads this language  
Hall moon's her lantern  
No sign of a road  
This land is breathing  
She cease from meaning  
Molecular show

Can't hope to sleep  
On this restless peak  
She keeps coming back  
To this place of fear and lack  
Can't hope to sleep  
For her tears repeat  
What she gave did not come back  
She goes 'round and 'round this cul-de-sac

Can't hope to sleep  
On this restless peak  
She keeps coming back  
To this place to fear and lack  
Can't hope to sleep  
For her tears repeat  
It's better to her taste  
What she can't digest, regurgitates

Back is tom beneath her heavy load  
Lost him up along this lonely road  
Loved him where he lacked  
But he couldn't love her back

Back is tom beneath her heavy load  
Lost him up along this lonely road  
Loved him where he cracked  
So he couldn't love her back

Back is tom beneath her heavy load  
Lost him up along this lonely road  
Loved him where he lacked  
But he couldn't love her back

Back is tom beneath her heavy load  
Lost him up along this lonely road  
Loved him where he cracked  
So he never loved her back
