

# Hush

James

Was surprised you showed up to my wake  
Guess you wanted proof, I'd made it through the gaze  
Hush a body in the lake, take small weight  
I'm not looking for revenge, I love this place

Can't you cultivate patience? It's not too late  
I will, I will, I will wait  
Fall in love with creation, interlaced  
I will, I will, I will wait  
I'm in line at the best of times, in death I have to fade  
I will wait, I will wait, I will wait

As above, not so below  
Love instead what I want more

Can't you cultivate patience? It's not too late  
I will, I will, I will wait  
Fall in love with creation, interlaced  
I will, I will, I will wait  
I'm in line at the best of times, in death I have to fade  
I will wait, I will wait, I will wait

My humming in your sleep keeps you awake  
Try writing off this friend you cannot shake
