Leviathan

James

Take my hand
One, two, three
We will jump together through
The skylight on the sea
Become one with me
Find a gap in the folds
Between the worlds

Where I will wait for you, love
With our brews, love
Love as weathered as a shape
Beyond a new love

Fucking love
Before they drop the bomb make sure
You get enough
Fucking love, fucking and love
Before they drop the bomb make sure
You get enough

You blow my mind (You blow my mind)
We will come together (Together)
A rend in time (A rend in time)
Takes two of us to breach (To breach)
You blow my mind (You blow my mind)
Into the whatever (Whatever)
How high's too high (How high's too high)
A singularity

Let me know if you got free
Did your starmap lead you home?
The skylight on the sea
Trust outweighs beliefs
We're just guests within these skins
Of blood and bones

Right inside the star ship
Never twice the same trip
Hold me in a tight grip
Healing for the lovesick
Right inside the star ship
Never twice the same trip
Hold me in a tight grip
Healing for the lovesick

Right inside the star ship
Never twice the same trip
"Don't wanna be alone"
Written on my headstone
Right inside the star ship
Never twice the same trip
"Don't wanna be alone"
Written on my headstone

You blow my mind (You blow my mind)
We will come together (Together)
A rend in time (A rend in time)

Takes two of us to breach (To breach)
You blow my mind (You blow my mind)
Into the whatever (Whatever)
Our hearts, two hearts (Our hearts, two hearts)
A singularity

Takes two of us to breach (To breach)
You blow my mind (You blow my mind)
Into the whatever (Whatever)
Our hearts, two hearts (Our hearts, two hearts)
A singularity
