

Many Faces

James

There's only love that's strong enough
To rescue us from self-destruct

You don't think so, but we're all the same
You don't think so, you've got skin in the game
We're in sync so we're afraid to change
That's just how it is

My brother's mad at me, our room's a tomb of dead canaries
I'm right, why can't he see right to the bitter end
My God, what's-his-name, says your God is just calamari
My God's new to this game, you don't know who to blame

You don't think so, but we're all the same
You don't think so, you've got skin in the game
We're in sync so we're afraid to change
That's just how it is

We're born, so we die
We see lives entwined
You see our differences
All walls fall over time
We're here
To reconcile our hearts

All walls fall over time
Reconcile our hearts
All walls fall over time
To reconcile our hearts
All walls fall over time
To reconcile our hearts
All walls fall over time

There's only one human race
Many faces, everybody belongs here
There's only one human race
Many faces, everybody belongs here
There's only one human race
Many faces, everybody belongs here
There's only one human race
Many faces, everybody belongs here

There's only one (We're alive and then we die)
Human race (We're alive and then we fly)
Many faces (we're alive and then we die)
Everybody belongs here
There's only one (We're alive and then we die)
Human race (We're alive and then we fly)
Many faces (we're alive and then we die)
Everybody belongs here

There's only one (We're alive and then we die)
Human race (We're alive and then we fly)
Many faces (we're alive and then we die)
Everybody belongs here
There's only one (We're alive and then we die)
Human race (We're alive and then we fly)

Many faces (we're alive and then we die)
Everybody belongs here

There's only one human race
Many faces, everybody belongs here
There's only one human race
Many faces, everybody belongs here
