

Our World

James

People with no history
Are destined to spin and repeat
Nobody sees
Nobody sees
Their own shadow

How many ways can we kill ourselves
Plastics, oil, forever chemicals
Everyone breathe
Everyone breathe
Spit, don't swallow

Because our world
Isn't your world
You just stole the world
Just been free

Our forefathers plundered freely
Turned freedom into slavery
Had a set of beliefs
To put their minds at ease
One that forgives and blessed their excesses

Now we're owned by our relative's greed
Fake democracies come cheap
Profit today from our children's tomorrow
Get rich quick in El Dorado

Our world
Isn't your world
You just stole the world
Just been free

Our world
Isn't your world
We don't own the world
She came for free

Why obsess with nationality
We're all mutts
We are family
We have a dream
We have a dream
Share, don't spoil

Because our world
Isn't your world
Nobody sees
Nobody sees
Their own shadow

Every part is aligned
Every piece intertwined
We're a part of the piece of the whole

Only fools think we own
What is sown needs to grow

I'm a fool, I don't know
But I try

La la la, la la
La la la, la la la
La la la, la la
La la la la
La la, la la, la la, la la
La la
La la la, la
La la la, la

La la la, la la
La la la, la la la
La la la, la la
La la la la
La la, la la, la la, la la
La la
La la la, la
La la la, la
