

So Swell

James

Waiting for the limo to arrive
Moments to compose yourself
Thank your mother, the producer
Don't forget the rest of the help

Ooh, you're the face of the year
Cover smile on every shelf
Ooh, so swell
So swell

Ooh, you've been hurting yourself
Track marks are just for show
On the inside you're a ghost town
Tumbleweed and Bates Motel

Ooh, you're as stupid as you're pretty
Expecting love for being kind

And I hope you love the party
I hope you love being queen of the ball
Yes I hope you love the party
I hope you weren't preparing to fall

Ooh, you look fabulous tonight
Cameras just suck you in

And I hope you love the party
I hope you love being queen of the ball
Yes I hope you love the party
I hope you weren't preparing to fall
I just hope you love the party
