

# Stand

James

Tunnel vision  
Virtual saviour  
Inner vision for all mankind  
They found a new drug that might just save you  
Stops you thinking  
Never mind

Now I've been dwelling on doubts and failures  
I've been striking the band  
I'm trying to focus on things I'm proud of  
Stand stand stand  
Stand stand (stand)

Deal a card  
I'll take my chances  
Some suspicion  
The ace is palmed  
They found a new drug down in Mesapotania  
Ruritania or some such land

Now I've been dwelling on doubts and failures  
I've been striking the band  
I'm trying to focus on things I'm proud of  
Stand stand stand  
You've got to stand stand stand  
You've got to stand stand stand  
You've got to stand stand stand

Out on the freeway  
Counting fences  
Measuring life I left behind  
Time is the distance between me and my feelings  
Fenced in feelings  
Pass with time

Now I've been dwelling on doubts and failures  
I've been striking the band  
I'm trying to focus on things I'm proud of  
Stand stand stand  
You've got to stand stand stand  
Stand stand
