

Stay

James

Crow
Eats putty from a window pane
Shards of glass
Don't break your fate
Go
Past your threshold of pain
All of our help
You waived away

Flew into the stars
Made of blades
They spun you out
Cut your face

Lovers of God, be grateful
Love what we've got
Life's a struggle of love
Grit, pearl, oyster
Lovers of God, be grateful
Love what we've got
Life's a struggle to love
Grit, pearl, oyster

Stay
Stay
Stay
Stay
Stay

Don't go
Don't let this stain
Dictate tomorrow
Write your refrain
You supposed
That this place was fair
Equal in share
By people that cared

Darling
We're all made of matter
Our bodies will shatter
Unravel under gravity's weight

Lovers of God, be grateful
Love what we've got
Life's a struggle of love
Grit, pearl, oyster
