```
Here's to long life,
For the end I'm in a home,
All my friends have long since gone,
The staff are cold but rules are rules,
How can children be so cruel?
If I could leave I wouldn't stay,
Never thought I'll end this way,
Death is welcome while she waits,
Tell her I said so,
At the window seasons change,
Here inside its all the same,
With the snow the birds have flown,
Tell her I said so,
We all pray for longer life,
Longer life stuck in some home,
Homes a word cuts like a knife,
No-one chooses to grow old,
Put your mark upon my door,
I don't play here anymore,
This delay is just a bore
Tell her I said so,
Here's to long life,
Heres to life that's lived so long,
Here's to long life,
Here's to long life,
Here's to long life,
```

Here's to long life,

```
Here's to long life,
Here's to long life,

Heres to life that's lived so long,

Here's to long life,
```
