

## Wah Wah Kits

James

Scared kids, you're all the same  
You just live to fly again  
Your age shows

Dead flies on the bumper tonight  
Sore skin, your knuckles gone white  
Your name is the neighbourhood scum  
Say your name, it's the neighbourhood scum

My baby, born forty eight  
Robbed a car and fled the state  
Your name is the neighbourhood scum

Hit the stars on the way tonight  
Smashed the car when you jumped the lights  
Your name is the neighbourhood scum  
Say your name, it's the neighbourhood scum

Stole a bus and now you've gone too far  
All these stops are to pick up a car  
Your rage shows  
All these troubles are getting me down  
Any more and I'd better leave town  
Your name is the neighbourhood scum  
Say your name, it's the neighbourhood scum
