

# Bars Back Home

Jameson Rodgers

I've been in honky tonks and old dive bars  
Clear across this country  
Drank beach-front beers and big city shots  
That cost a little too much money  
This guitar's taken me all kind of places  
My daddy's only seen on TV  
I love what I do and the places I've seen  
But the one thing I've learned about me

I'm little more bars back home  
Beer from a bottle  
Hidin' in the corner of an old map dot  
One man band playin' "Black Water"  
Knowin' every truck in the parking lot  
I can have a good time anywhere I go  
But give me the neon that frees my soul  
'Cause a hurt don't heal and a buzz don't feel  
Like it does in the bars back home

If I'm gonna take me a Sunday drive  
I'd rather it be at sundown  
If I'm ever gonna settle down  
It's only gonna be in one town  
I'm always gonna be that good ol' boy  
Blue jeans and a camouflage hat  
But when it comes to a Friday night  
And knockin' one or two back

I'm little more bars back home  
Beer from a bottle  
Hidin' in the corner of an old map dot  
One man band playin' "Black Water"  
Knowin' every truck in the parking lot  
I can have a good time anywhere I go  
But give me the neon that frees my soul  
'Cause a hurt don't heal and a buzz don't feel  
Like it does in the bars back home, yeah

I'm little more bars back home  
Beer from a bottle  
Hidin' in the corner of an old map dot  
One man band playin' "Black Water"  
Knowin' every truck in the parking lot  
I can have a good time anywhere I go  
But give me the neon that frees my soul  
'Cause a hurt don't heal and a buzz don't feel  
Like it does in the bars back home  
Yeah, a hurt don't heal and a buzz don't feel  
Like it does in the bars back home

Yeah, in bars back home
