Desert

Jameson Rodgers

Life's kinda funny, but it doesn't always make you laugh
Sometimes the punchline doesn't hit you till you're looking back
k
You're gonna wish on a bunch of stars that never do align
But always remember this world's spinning on God's time

Man, life's kinda crazy, you can't predict the weather
But the cold and the rain and the pain don't last forever
You know the lows sure make the highs so much better
Man, sunshine all the time just makes a desert
Makes a desert, makes a desert

Don't waste a day worried 'bout what tomorrow's bringing
Just 'cause a ship's taking on a little water don't mean it's s
inking
You can't just roll through it, you gotta roll with it
Just pull your boots up and dig your heels in it
Tell the ones you love that you love 'em
Tell the ones you miss that you miss 'em

'Cause life's kinda crazy, you can't predict the weather
But the cold and the rain and the pain don't last forever
You know the lows sure make the highs so much better
Man, sunshine all the time just makes a desert
Makes a desert, makes a desert

There's a reason we come into this world crying
And spend all of our time trying to leave it smiling

Man, life's kinda crazy, you can't predict the weather
But the cold and the rain and the pain don't last forever
You know the lows sure make the highs so much better
Man, sunshine all the time just makes a desert
Makes a desert, makes a desert

Yeah, sunshine all the time just makes a desert
