Almost All The Time

Jamestown Revival

```
Well she knows what I need
And she knows how to please
But she takes her love from me
When she's gone, gone, gone

She loves me
She loves me
My baby loves me almost all the time
And then I go and toe the line
Make misery a friend of mine
My baby loves me almost all the time

Well she knows what it means
To give me grace when I need
But she takes her love from me
When she's gone, gone, gone

She loves me
She loves me
My baby loves me almost all the time
And then I go and toe the line
Make misery a friend of mine
My baby loves me almost all the time
My baby loves me almost all the time
My baby loves me almost all the time
```
