

Working On Love

Jamestown Revival

Up in the morning early to rise
Down with the sun and the heavy eyes
Diggin' in the soil getting dirt on the hands
I'm working on love like I'm working on the land

Underneath the sun when the sky rings blue
Listening to the song of the bird ring true
Underneath the shade where the oak tree stands
I'm working on love like I'm working on the land

Down by the creek where the water flows
Underneath the pine where the yaupon grows
Rain gonna come bring life from the sand
I'm working on love like I'm working on the land
I'm working on love like I'm working on the land
