Everything You Didn't Do

Jamie Cullum

I will meet you in the city When it's lit up by the stars In the moonlight we're all pretty Cos it papers over scars

Ever feel like you belong To a story you ain't heard Doesn't matter if it's your song And you don't know all the words

We should put up a sign We are citizens of all you can see We've got nothing but time Cos you'll find Everything you didn't do (2x) Is standing right in front of you

A euphoric combination Of a thousand dirty hands There's no need for complication On the shoulders we will stand

It's a patient exploration Where discovery is free There's no need for explanations We exists where we can see

I don't even know what to say about every little thing Cos I'm tired and I want to go to sleep It's so clear now (6x) That you'll find Everything you didn't do (4x) Is standing right in front of you
