

This Winter

Jamie Cullum

I don't wanna build a snowman
The only man I need is right here
I don't wanna drag any tree
You see, I only want to decorate you, dear

I've only one intention
That I'm gonna pursue
'Cause this winter
My only plan is to love you

You won't find me stuck on the highway
'Cause I'm swerving off the road to your home
Navigating Bay Brightstone
So never again will you be alone

Nothing on my schedule
Is under review
'Cause this winter
My only plan is to love you

No need for sleighbells or trumpets or drums
We'll find a river to skate away on
So come on, all ye faithless
Love all over town

I'm homin' in on one devotion
I dreamt about this all year long
I've got to simplify my aim
So I'll wrap you in my arms, where it's warm

All your other lovers
Can get in a queue
'Cause this winter
My only plan is to kiss you
My only plan is to hold you
My only plan is to love you
