

# For You

Jamie Fine

You drink coffee every morning  
And you always stain the counter  
You don't tell me when you're hurting  
You're just as sensitive as flowers  
But your eyes could light the room  
I could stare at you for hours  
Anywhere is home with you  
This love is crazy, but it's ours

And I  
Was holding back because I knew you'd find me  
This whole time I was waiting for you

You're often indecisive  
And you hate being alone  
You pout when you don't get your way  
And always lose your phone  
But I'm proud to hold your hand  
That's for everyone to see  
Cause out of 7 billion people  
It's a wonder you found me

And I  
I was patient 'cause I knew you'd find me  
This whole time I was waiting for you  
This whole time I was waiting for you  
This whole time I was waiting for you  
This whole time I was waiting for you  
This whole time I was waiting for you

I'd bet on us  
There's no way we could lose  
When you're short on love  
I've got enough for two  
I'd bet on us  
There's no way we could lose  
When you're short on love  
(This whole time I was waiting for you)  
I've got enough for two  
I'd bet on us  
There's no way we could lose  
When you're short on love  
I've got enough for two  
I'd bet on us  
There's no way we could lose  
When you're short on love  
(This whole time I was waiting for you)  
I've got enough for two  
I'd bet on us  
There's no way we could lose  
When you're short on love  
I've got enough for two  
I'd bet on us  
There's no way we could lose  
When you're short on love  
(This whole time I was waiting for you)  
I've got enough for two

This whole time I was waiting for you
